Join us for a Regional Member Retreat focused on connection and narrative practice, as we reflect on the essential work CDCs lead in LMI communities and the need for stable, diversified funding to sustain it. As we look toward the 2027 state budget cycle, invited legislators will join a portion of the retreat in a listening and learning capacity to build shared understanding of funding realities and long-term impact — without advocacy or policy requests.

***Our Hosts: Wean Foundation, Trumbull  
Neighborhood Partnership, Intentional
